Event technology

With its event technology and staff, CPH is just as well positioned for digital and hybrid events as it is for live events. There is sufficient scalable space and attractive rooms to make the attended areas of hybrid events compliant with coronavirus conditions.

Our particular strength is thorough planning and extensive consultation. The CPH technical team carries out the planning and interpretation in close coordination with the event organizer.

- ▶ Live streaming
- ▶ Hybrid congresses and meetings
- ▶ Virtual trade fairs and product presentations
- ▶ Events both live and conventional

EVENT TECHNOLOGY

LIVE STREAM AND MULTIMEDIA

- 
- ▶ Broadband fibre optic connections performing at up to 100 MBits
 - ▶ Structured network cabling
 - ▶ WLAN network with the 802.11ac standard
 - ▶ Modern, intelligent camera technology – remote-controlled, with integrated tracking function or operated by camera staff
 - ▶ Directing and editing suites
 - ▶ Presentation and preview systems
 - ▶ Stage lighting adapted to the camera
 - ▶ Mobile audio, video, projection and lighting technology

GREEN MEETINGS WELCOME

When it comes to climate protection, every contribution counts. There are numerous approaches to conserving resources during conferences and events. We apply those approaches so that our customers at CPH can organise their events in a way that is sustainable and climate friendly. The guidelines of „fairpflichtet“, the sustainability code of the German-speaking events industry, help us to do just that. We are also available to provide event organizers with advice and support to ensure, that events at CPH are as environmentally and climate friendly as possible.

Thanks to our cooperation with „natureOffice“, it is possible to realize completely climate neutral events at the CPH.
